## Live Event Production, Concert recordings, Conferences

Live recording are a great way to showcase your work. Immersion Imagery can shoot your live event for DVD sales, exposure on your web site, youtube, myspace, facebook or as content for an EPK. We can shoot multi-camera to provide the right type of coverage and can even assist in providing a experienced lighting operator to give your recordings that visual edge. Concert recordings can be output in a variety of formats: from DVD to video CD to a Quicktime or FLV file for your Youtube.com uploads. For your next event why not let Immersion Imagery assist in creating a DVD that will capture, record and highlight your event. Our team will work with you to create a custom made quality recording of your special event. Uses include: · Corporate · Concerts · Live Gigs · Conferences · Seminars
